

# 14th Street Bridge Reconstruction

## Fulton County

The Georgia Department of Transportation has begun a Reconstruction Project of the 14<sup>th</sup> Street Bridge. As of June 2007, utility relocation is underway and will take approximately 9-12 months to complete. The project is designed to help relieve congestion and improve safety at the 14<sup>th</sup> Street interchange.

**The scheduled completion date is May 31, 2010**

### Project Scope

- The project will consist of replacing the 14<sup>th</sup> Street Bridge over Interstate 75/85.
- Bridge improvements include two new exit ramps from the connector southbound to 10<sup>th</sup> Street and northbound to 17<sup>th</sup> Street to relieve congestion on existing ramps.

### Impact on Travel

- Traffic on the downtown connector will be paced and lanes will be shifted to accommodate utility work.
- It will be necessary to close the 14<sup>th</sup> Street Bridge once construction begins.
- Traffic will be detoured to the 17<sup>th</sup> Street Bridge once the 14<sup>th</sup> Street Bridge closes.
- Construction will not take place during inclement weather or on holiday weekends.

### Motorists Safety

- Motorists are encouraged to reduce speed in work zones as fines will be doubled.
- Motorists can access NaviGAtor services at [www.georgia-navigator.com](http://www.georgia-navigator.com); or call \*DOT on Verizon or AT&T cellular phones for up-to-the minute traffic information.
- For more information visit the Georgia DOT website at [www.dot.state.ga.us](http://www.dot.state.ga.us) or call the District Office at **770-986-1011**.
- Coming in August: 511, Georgia's Travel Information number, brought to you by NaviGAtor!
